MS (AI & Business Analytics) student and ex-Program Associate who builds and ships AI-powered tools end to end. Took internal products from a 40-person pilot to company-wide adoption, lifting session attendance 19%→52% and video counselling engagement 2%→30%.

Education

ABV-IIITM Gwalior (Institute of National Importance) 2026 – Present
MS in Artificial Intelligence & Business Analytics *Gwalior, India*

SRM Institute of Science and Technology 2022 – 2026
B.Tech CSE (Big Data Analytics), CGPA: 8.9/10 *Chennai, India*

Experience

Leap Scholar (Outleap Technologies) Jun 2025 – Jun 2026
Program Associate *Completion Certificate*

- Built an AI college recommendation engine for counsellors using Gemini LLM for personalised explanations; piloted with 40 counsellors and RMs, then adopted company-wide as a daily tool.
- Shipped the College Finalization Tool (0→1) and internal RM Copilot; led rollout and training, lifting video counselling engagement from 2% to 30%.
- Designed and deployed 4 REST API automation/reminder bots (tested on below-target leads, then scaled to all users): session attendance 19%→52%, less manual follow-up.
- Delivered end to end without dedicated engineering support, coordinating operations, growth and management.

IASRI (Indian Agricultural Statistics Research Institute) June 2024
Machine Learning Intern *Completion Certificate*

- Built a CNN plant disease detection model (91% accuracy) across multiple crop datasets; owned the full pipeline from data collection to deployment.
- Handled class imbalance and inconsistent field-image quality to keep the model robust across crop types.

Projects

PosturaSenseAI: Real-Time Posture Detection 1st Place, Innofusion'25 (71 teams)
OpenCV, CNN, Streamlit, Llama

- Real-time posture classifier (92% accuracy) with a Streamlit app and LLM guidance; judged on usability.

Hidden Gems: Local Discovery Platform IEEE SPICES 2026 (accepted)
Next.js, Supabase, Firebase, Sentence-BERT

- Deployed end-to-end venue-discovery platform; live with first Chennai venues, now scaling onboarding.

AI Password Strength Analyser Finalist, Barclays Hack-O-Hire 2025 (Top 24/6000+)
ML breach prediction, facial MFA, GenAI feedback

- Breach prediction, crack-time estimation and GenAI feedback, built in a 24-hour hackathon window.

SHEild: Mental Health Chatbot Runner-Up, Day Zero Hackathon (100+ teams)
Proactive LLM chatbot inside the SHEild women's safety app

Research Publications

Credit Card Fraud Detection with Explainable AI and Model Comparison
Peer-reviewed and presented at IEEE-sponsored ICDSBS 2025, SRMIST

- Benchmarked multiple classifiers on imbalanced transaction data; XGBoost selected as the primary model.
- Integrated SHAP and LIME for per-transaction, human-readable explanations of model decisions.

Certifications & Achievements

- **Microsoft Certified: Azure AI Fundamentals**
- **Winner,** Innofusion'25 (71 teams) · **Finalist,** Barclays Hack-O-Hire 2025 (Top 24/6000+) · **Runner-Up,** Day Zero Hackathon (100+ teams)

Skills

Product & Program: 0→1 builds, roadmapping, KPI tracking, workflow automation, SOP design, stakeholder management
Tools: Python, C++, Power BI, Tableau, Figma, REST APIs, Firebase, Supabase, Git
AI: LLM integration (Gemini, Llama), prompt-driven feature design, computer vision, NLP
